PURCHASING DEPARTMENT
Minority Business Development Program

Dear Reader:

As you have probably heard, on March 23, 1987 the U. S. Court of Appeals for the 9th Circuit struck down major portions of San Francisco's Minority/Women/Local Business Enterprise Ordinance as a result of a suit brought by the Association of General Contractors. Simply stated, the court ruled that:

1. The MBE bid preference may not be applied to City contracts;
2. The WBE bid preference may be applied to contracts where the San Francisco charter does not require competitive bidding; and
3. The LBE bid preference may be applied to all City contracts.

The decision is more complicated than that, particularly in light of two recent Supreme Court decisions upholding the principles of affirmative action. Our attorneys (the City Attorney and friends of the Ordinance) feel that the court was in error and on April 6th they petitioned for a rehearing of the case by the full 9 member court. That action stayed the March 23rd ruling and the City is continuing with MBE/WBE business as usual.

We are still seeking minority and women vendors to do business with the City. We are still offering bid preference to certified minority/women/local vendors.

If you have any questions about our program don't hesitate to call.

Yours truly,

City and County of San Francisco

PURCHASING DEPARTMENT
Minority Business Development Program

Dear Reader:

As you have probably heard, on March 23, 1987 the U. S. Court of Appeals for the 9th Circuit struck down major portions of San Francisco's Minority/Women/Local Business Enterprise Ordinance as a result of a suit brought by the Association of General Contractors. Simply stated, the court ruled that:

1. The MBE bid preference may not be applied to City contracts;
2. The WBE bid preference may be applied to contracts where the San Francisco charter does not require competitive bidding; and
3. The LBE bid preference may be applied to all City contracts.

The decision is more complicated than that, particularly in light of two recent Supreme Court decisions upholding the principles of affirmative action. Our attorneys (the City Attorney and friends of the Ordinance) feel that the court was in error and on April 6th they petitioned for a rehearing of the case by the full 9 member court. That action stayed the March 23rd ruling and the City is continuing with MBE/WBE business as usual.

We are still seeking minority and women vendors to do business with the City. We are still offering bid preference to certified minority/women/local vendors.

If you have any questions about our program don't hesitate to call.

Yours truly,
